Cookie Policy

Last updated: 04.22.2023

Introduction

This Cookie Policy explains how askdm.com ("we," "us," or "our") uses cookies and similar technologies to recognize you when you visit our website at askdm.com (the "Website"). It explains what these technologies are and why we use them, as well as your rights to control our use of them.

What are cookies?

Cookies are small data files that are placed on your computer or mobile device when you visit a website. Cookies are widely used by website owners to make their websites work, or to work more efficiently, as well as to provide reporting information.

Cookies set by the website owner (in this case, askdm.com) are called "first-party cookies". Cookies set by parties other than the website owner are called "third-party cookies". Third-party cookies enable third-party features or functionality to be provided on or through the website (e.g. like advertising, interactive content and analytics). The parties that set these third-party cookies can recognize your computer or mobile device both when it visits the website in question and also when it visits certain other websites.

Why do we use cookies?

We use first-party and third-party cookies for several reasons. Some cookies are required for technical reasons in order for our Website to operate, and we refer to these as "essential" or "strictly necessary" cookies. Other cookies enable us to track and target the interests of our users to enhance the experience on our Website. Third parties serve cookies through our Website for analytics and other purposes. This is described in more detail below.

The specific types of first- and third-party cookies served through our Website and the purposes they perform are described below.

Essential website cookies:

These cookies are strictly necessary to provide you with services available through our Website and to use some of its features, such as access to secure areas.

Performance and functionality cookies:

These cookies are used to enhance the performance and functionality of our Website but are non-essential to their use. However, without these cookies, certain functionality (like videos) may become unavailable.

Analytics and customization cookies:

These cookies collect information that is used either in aggregate form to help us understand how our Website is being used or how effective our marketing campaigns are, or to help us customize our Website for you.

Advertising cookies:

These cookies are used to make advertising messages more relevant to you. They perform functions like preventing the same ad from continuously reappearing, ensuring that ads are properly displayed for advertisers, and in some cases selecting advertisements that are based on your interests.

Social networking cookies:These cookies are used to enable you to share pages and content that you find interesting on our Website through third-party social networking and other websites. These cookies may also be used for advertising purposes.

How can I control cookies?

You have the right to decide whether to accept or reject cookies. You can exercise your cookie preferences by clicking on the "cookie settings" link in the footer of our Website.

You can also set or amend your web browser controls to accept or refuse cookies. If you choose to reject cookies, you may still use our Website though your access to some functionality and areas of our Website may be restricted.

More information

If you have any questions about our use of cookies or other technologies, please email us at SUPORT@ASKDM.COM
